Our Commitment to Diversity

From the beginning, Seedlings' work has always been based on a belief in the value, dignity, and equitable rights of all people. Our mission prioritizes opportunities and education for children with vision loss, but we also strive to recognize and uplift the strengths and uniqueness found across human diversity.

An important step in this commitment is the transcription of relevant, high quality children's literature that promotes equitable themes like peace and justice with positive portrayals of people from different backgrounds, identities, ethnicities, and abilities.

We pledge to continue to highlight and promote books that foster understanding, and to research and add more diverse, educational titles. Seedlings wholeheartedly believes these books have the power to place the proper "seeds" into the hands of children, helping them flourish and grow into understanding, capable, and empowered people.

Braille for Beginners (B4B)

Placing our books into the hands of toddlers and preschoolers ages 0-3 with vision loss became a priority when we realized that success in school and beyond depends heavily on children and their families having braille books at an early age. Through the B4B program, hundreds of Print Braille & Picture Books have been sent to Early Intervention Programs across the U.S. to share with the families they serve.

If you are part of an Early Intervention Program interested in receiving braille books through B4B, please contact Seedlings.

Please note:

- All FREE program orders are shipped via Free Matter for the Blind.
- All FREE program orders are processed as time and materials allow. Please be patient as we balance paid orders with free orders.
- By participating in these FREE programs, you will be added to our email list so you can receive email notifications of other giveaway programs, etc.
- Since Seedlings is a small nonprofit organization with limited resources, our 3- and 4-volume books are excluded from our FREE programs. Orders are also limited to one copy of 9817 The SENSEational Alphabet Book.

About Our Braille Books

The Current Braille Code Unified English Braille (UEB)

In November 2012, the Braille Authority of North America (BANA) voted to adopt the Unified English Braille Code (UEB) as the official code for the United States. We then joined several other countries who adopted UEB before us. The new code was implemented in the U.S. on January 4, 2016 and since then, we have converted over 800 of our books to UEB, making Seedlings a leader in UEB books for children.

We started with our books for younger children (please see Page 1) and have worked our way up to our popular big books for older children and teens. Some of the bigger books are still be available in the old code (EBAE), and they are listed on our website (seedlings.org).

For more information on UEB see:

www.brailleauthority.org

Just as we have in the past, the Seedlings staff will continue to work hard to give you high-quality, low-cost children's books in braille!

Uncontracted vs Contracted Braille

Uncontracted Braille is the simplest form of braille. It consists of a symbol for each letter of the alphabet and a few for punctuation. In Contracted Braille, several dozen special symbols (contractions and short forms) were added to make the books shorter and faster to read.
